**Scottish Water Staff Present**

Roy Caig, Scott Gibson,  
Ross Johnston, Gareth Woods  
Martin McGarvie, Michael McMinn, Andrew Miller, Derek Kassell

### **Summary of Inspection**

#### **Overall Summary**

Auchneel is a small WTW outside of Stranraer serving the local area. It experienced some issues over the summer of 2021 when flows were reduced due to extremely low reservoir levels, but is usually consistent in producing compliant quality drinking water. Incoming water is coagulated and clarified prior to filtration and manganese removal followed by disinfection. I was particularly impressed by the two modern apprentices who are well trained and confident.
